FOUR ARRESTED AND FINED FOR BARROOM FIGHT

A barroom fight in the Fairfield Hotel on May 17 resulted in four arrests and the levying of fines and costs by Fairfield Justice of the Peace, Roger Myers, when the quartet was arraigned before him on charges of assault and battery and disorderly conduct. All pleaded guilty.

State police arrested these men charged with beating up Frederick E. Cool, Fairfield R. 1: Gordon Kendall Massey, 34, Carlisle; Earl Harry Kauffman, 24, 147 W. Middle St.; Charles Dale Kauffman, 28, and Robert James Kauffman, 24, both of Gardners, R. 2. The Kauffmans are brothers.

Cool charged before Justice Myers that the four men "beat him up" after drinking at the Fairfield Hotel. Cool laid the assault and battery counts and Maynard Stuckey, proprietor of the hotel, charged the four with disorderly conduct. The warrants were served on Tuesday.

On the disorderly conduct charges, Justice Myers Wednesday evening, fined each of the four $5 and assessed costs of $6.25 each.

On the assault and battery charges a settlement was reached by which Cool dropped the charges after the four paid him $50 to cover medical and other expenses and loss of time at work. Each of the defendants also paid costs of $6.25 on the assault charges and were warned by Justice Myers not to get into any further trouble with Cool.

Coldest June 19 In Gettysburg Since '09

Summer begins Monday but this morning's low temperature gave little indication of its proximity when the mercury dropped to 48 degrees, making it the coldest June 19 in Gettysburg in the last 45 years. On this date in 1909 there was a low of 44 degrees which holds the record for the date in local weather annals.

Readings in the 40's are not rare here in June but they very seldom occur so late in the month, records show. Yesterday's high was 80 degrees and 80-degree weather is forecast again for today.

By 7:30 o'clock this morning a bright sun had boosted the temperature to 61 degrees.

Revolt Breaks In Guatemala

By SAM SUMMERLIN

TEGUCIGALPA, Honduras (AP) — Anti-Communist rebels battled government forces at key points throughout neighboring Guatemala today as a long-brewing attempt to unseat the leftist-tinged government of President Jacobo Arbenz Guzman exploded in bombs and shells.

The "liberation" troops, which attacked Guatemala by land, sea and air yesterday, were reported locked in bloody combat with defending forces at four important cities. There also were reports of internal uprisings throughout the embattled country.

A Guatemalan delegate to the United Nations announced in New York last night his government had protested to the Security Council against the "criminal invasion of my country." The delegate, Eduardo Castillo Arriola, said the protest had been sent to Henry Cabot Lodge Jr., of the United States, Council president.

Adams County Bar Enjoyed Feast Of 34 Items, 11 Speeches At Testimonial Dinner 57 Years Ago

There were gas light and crinoline, a gold strike in the Klondike and another on Adam King's farm in York County on Wednesday evening, November 17, 1897, when 25 members of the Adams County Bar Association tendered a complimentary dinner to the Honorable John Stewart, president judge of the 39th Judical District of Pennsylvania.

The banquet was held in the Eagle Hotel (now the Adams House) where proprietor Eberhart handled the cuisine in his "usual good fashion" according to the account in The Star and Sentinel. All but three of the 25 members of the county bar attended the banquet, as did Judge Stewart's colleagues on the bench, the Honorable Samuel McC. Swope, Cyrus G. Beales, and Thaddeus S. Blocher, to pay tribute to Judge Stewart for "his ability, promptness and fairness."

Sumptuous Banquet

The record attendance of both bar and bench, while a tribute to Judge Stewart, was prompted also by the lush dinner offerings which satisfied even the most epicurean gourmet. The guests had ample opportunity to sample 34 different items including 5 wines, 3 seafood offerings, soup, roasted, broiled and boiled entrees, assorted cold dishes, and 6 kinds of assorted fruits, candies and nuts. It was little wonder the closing offering was "cafe noir."

Having pulled back their chairs from the resplendent feast the guests lighted their cigars and were addressed by the Honorable David McConaughy, toastmaster.

A propos of the occasion, the toastmaster launched the speechmaking with a text from Shakespeare's Troilus and Cressida, "For your health and your diges-

fighting was in progress at two ports and two important inland rail centers. They were:

Puerto Barrios, Guatemala's big east coast fruit shipping port. (In New York, the National Broadcasting Co. said its Tegucigalpa correspondent reported last night Puerto Barrios has fallen to the rebels.)

San Jose, a naval-air base and commercial port on the Pacific coast. This city was used by the United States during World War II as a long range patrol bomber base. It is a site of a large gasoline storage deport.

Retalhulen, a city near the Mexican border. It is the junction of a rail line from the coast at Camperico and another running south from Mexico.

Zacapa, a rail center near the Honduran border 75 miles northeast of Guatemala City, the nation's capital.

Bombed Before Invasion

The spokesman said all four centers and Guatemala City had been bombed by planes before the invading troops hit. Capture of the four cities would cut virtually all the capital's rail connections.

The State Department in Washington said it has received reports of serious uprisings in Puerto Barrios, Zacapa and Quezaltenango, 70 miles west of Guatemala City.

The rebel invading force reportedly numbers about 5,000 men. The Guatemalan Army is about 6,000 strong, but many of the officers are believed disgruntled by the leftist trend of the government. U.S. officials have expressed fears the Arbenz regime was creating a Communist beachhead within short range of the Panama Canal.

Open Mobilization

First word of the fighting was announced here by rebel spokesmen after several days of open mobilization of Col. Castillo's troops throughout Honduras.

In Guatemala, Foreign Minister Guillermo Toriello told a news conference "the battle for Guatemala" had begun. The only fighting he reported, however, was the bombing of San Jose. He said the planes were of unidentified nationality.

Toriello accused Nicaragua of supporting the rebel forces which, he said, included nationals of Cuba, the Dominican Republic and other Central American nationalities, as well as Guatemalan exiles. He declared "Guatemala will stand as one man against this criminal invasion."

Fire Bombs Dropped

There was no indication how many planes took part in the rebel bomb attacks. There also was no report from insurgent forces as to their effectiveness, although Castillo's spokesman said fire bombs were dropped on the San Jose gasoline depot.

Amadeo Chinchilla, Guatemalan ambassador to Honduras, said he heard bombs smashed three important Army centers in Guatemala City, including the presidential guard barracks and Army headquarters, itself. This report was denied, however, by Roberto Alvarado Fuentes, Guatemalan ambassador in Mexico City.

Communications with Guatemala City were hampered by a suspension of all foreign commercial telephone calls to the capital. The International Telephone and Telegraph Co. announced in New York last night the Arbenz government had taken over the service.

Adams County Free Library Satisfies Stumped Students By Digging Out Desired Data

Thousands of folk go to the Adams County Free Library many times a year for books—but hundreds of others go there for all sorts of information.

Recent questions asked members of the library staff ranged from how to take care of a baby squirrel and the date when hot dogs were first sold at baseball games to an outline of the duties of a juror and the length of time camels can go without water.

There there was one inquirer who wanted the librarians to supply the name for the separating membranes between the sections of an orange and another who wanted the ratings of various colleges in the United States in a number of special fields of learning. The librarians doubt that such lists exist. They haven't located them yet.

Answer Most Questions

But most of the questions carry plus signs back of them indicating that the request for information was supplied — usually by research among the library's collection of some 17,000 volumes but sometimes by passing the request along to the State Library at Harrisburg. The Harrisburg library was used recently for a library patron who wanted to know the various ingredients of cleaning fluids and their properties. When specific questions are asked, like identifying poems from quotations of a line or two, the librarians get specific answers but when requests seek the "types of arms used in the Civil War, the story of the Nutcracker Suite and the Firebird Suite, and the history of bicycling" the staff members assemble quantities of source material and turn it over to the inquirer to gather from it what is desired.

Receive Many Queries

Librarians here have been asked within the last month or two to supply information on undulant fever, its sources and means of transmission through milk; a list of the townships in Luzerne County, a history of the "underground railroad" in Adams County, the meaning of the names of the planets, a copy of the royal British coat of Arms, the influence of the American Indian on art, a list of the cemeteries in Adams County, how to build electric motors, how to install officers of an organization.

Mrs. Mary S. Wilson, county librarian, and her staff say they handle 200 to 300 of these "reference questions" a year. There were 24 last month and that was about average. A few of the requests come by telephone and by mail but most are posed by visitors who come to the library for help with their problems.

The volume of such questions is highest during the school months with the number of such requests expected to taper off during the summer.

SAPPINGTON TO BE RALLY GUEST AT EMMITSBURG

The Emmitsburg Democratic Central Committee announced a pre-election rally will be held in the VFW annex on Monday evening at 8 o'clock.

Lumen F. Norris, chairman of the committee, said that all candidates for the office on the Democratic ticket have been invited and that most of them plan to attend the affair in an effort to get better acquainted with members of the group and learn their views concerning the coming primary, June 28. Refreshments will be served and the public is invited.

R. Francis Sappington, who Thursday quit as Frederick County campaign manager for George P. Mahoney, candidate for governor, and is himself a candidate for House of Delegates on the Democratic ticket, stated that he would clarify the reason for his withdrawal from Mahoney forces at the Emmitsburg meeting. Sappington, in cutting loose from Mahoney, urged all his supporters to back the opposition candidate, Dr. H. C. Byrd, who is backed by the County Central Committee.

"One principal factor in shaping the picture is the private passenger car. There are now some 46,000,000 automobiles in this country, or one to almost every family. This provides a degree of travel economy and convenience for the great cross-section of the population."

Crime-fighting State Attorney In Alabama Is Slain By Gunman

PHOENIX CITY, Ala. (AP)—Crime-fighting Albert L. Patterson, Alabama's newly nominated attorney general, was gunned to death in his car here last night just as he had predicted he might be.

The 59-year-old Democratic nominee, who was to take office Jan. 17, was shot in the mouth by an assassin who, officers said, apparently rammed a small caliber pistol between Patterson's lips and fired twice.

One steel jacketed cartridge was found wedged in an opening where two or three front teeth had been knocked out.

Vow Swift Revenge

An associate in the anti-vice crusading Russell (County) Betterment Assn. blamed what he called "The Crime Syndicate" for the former state senator's death and vowed swift revenge. So did Patterson's former Army major son, John, who was a member of his father's law firm.

Howard Pennington, president of the Betterment Assn., which has campaigned for years to clean up one once gay and gaudy Phoenix City, told reporters he had heard Patterson say only Tuesday night that "they might try to get me."

"He said 'there's nothing you can do to help me,'" Pennington recalled, "and the only thing he asked was that if they did get him he didn't want them to get by with it. And they won't."

She will carry a bridal arrangement of stephanotis and ivy, centered with a white orchid, from which falls a shower of white satin streamers.

The maid of honor will wear a gown of petal pink netting with a satin underskirt. The fitted bodice of satin and ruffled netting will have a matching satin jacket. Today's Talk

THE MYSTERY OF IT

Henri Fabre, whom Victor Hugo called "the insects' Homer," and whom Maeterlinck rated as one of the most profound scholars and poets of his century, once stated that if we could interpret the mystery of the gnat, "knowing which we should learn the secret of all life." Said Fabre: "Human knowledge will be erased from the world before we possess the last word that this infinitesimal creature has to say to us."

Man has asked a great deal of Nature, and she has imparted to him secrets that millions of years had not revealed. But why should man unfold secrets that may eventually mean his end? Nothing in all this world is so important as universal peace. Why do people think that this peace must be purchased with the sword and at the cost of useless human slaughter? The people, in every populated country on this globe, want nothing of war. They are all for peace and good will among all nations.

What a lift to discouraged mankind if there could be signed a treaty of peace among all nations, and all engines of war scrapped into uses for peace and happiness! This is not an idle dream. It's got to come some day, or else every nation may lose its identity. The world cannot remain healthy and strong, half free and half slave.

What do all our wonderful discoveries and inventions amount to if we can't be comfortable and happy as a people, and be permitted to save sufficiently to give everyone a safe assurance for for his children as well as for his entire family? All of us in a free land can think peace every hour of the day, but we want company! We want the kind of peace that isn't bought—but which is freely entered into by those wanting peace.

LITTLE GIRL WITH A BLACK EYE

In those lost boyhood days of mine
The girls had waist-long tresses,
And little maids of eight and nine
Wore pretty frocks and dresses.
They'd dolls and carriages for toys
And many dainty graces.
None threw a baseball like the boys
Or like them, ran the bases.

The sexes then need not be guessed.
All knew the one from t'other.
In blouse and skirt the girl was dressed;
In knickers was her brother.
The small boy's hands were sad to see,
Displaying many a blister,
But soft and white as hands can be
Were those of little sister.

As shortstop, just the other day,
Jane tried to stop a liner.
She got her right eye in the way
And came home with
"a shiner."
Her troubled mother, terrified,
Thought Janie's eye was done for.
She shouted to someone outside:
"Please, please, a doctor run for!"

The doctor said: "Oh me! Oh my!
This case will long discussed be.
A little girl with such an eye!
I thought a boy it must be.
A little female Harvey Kuenn!
Belief it can be, lack I.
A little girl! The first I've seen
With such a gorgeous black eye."

MINERS BALLOT ON RETURN TO PITS OR STRIKE

By RICHARD HOENIG

TAMAQUA, Pa. (AP) — Striking miners in this hard coal region community decide tonight whether they will continue defiance of John L. Lewis and his United Mine Workers or return to the pits on Monday.

A meeting was scheduled for 7 p.m. in Tamaqua after Lewis for the second time in a week ordered the miners back to work.

The bushy-browed union chieftain had acted to ward off a threatened general workout of miners in eastern Pennsylvania's anthracite region.

Local 1571 President Jack Miske will present a report to the membership of a 2½ hour meeting yesterday in nearby Hazleton with Lewis and top UMW officials.

During the meeting Lewis asked Panther Creek Valley miners to go back to the pits. He expressed confidence they would heed his advice. Just Tuesday, after Lewis' first back to work demand, the local voted to continue its strike.

No New Proposals

Miske said in advance of tonight's meeting that yesterday's conference brought to light no new proposals and was, in fact, a carbon copy of a session Monday in Washington.

Lewis said he would not attend tonight's meeting.

Sitting at the head table yesterday with Lewis were Thomas Kennedy, UMW vice president; Thomas Brennan, president of the UMW's District 7 which covers the valley in northeastern Pennsylvania; and Dave Stevens, District 7 secretary-treasurer.

The closed session was quiet for the first two hours but during the last half hour the discussion was heated. Lewis' voice was once heard declaring, "If you would remove the pickets, the valley would be working now."

4,800 Are Idle

An estimated 4,800 valley miners have been idle since May 3 when Lehigh Navigation, biggest producer in the valley—the largest anthracite region in the nation—closed its mines and breakers because of excessive operating losses."

Early this month the company offered a five point trial program for reopening of six mines. Most of the miners decided to go along with the company proposals which UMW officials approved and said was within the terms of the existing contract.

But the Tamaqua local, which would lost about 200 jobs, voted to stay away from work and expressed dissatisfaction with Lewis' position. Pickets were established June 7 and the other miners refused to cross the lines.

Miske has said his local wants a return to "conditions in existence May 3" before it goes back to the mines. The company proposal would eliminate traditional contract or piece rates for top skilled miners under which it is possible to earn a day's pay in a few hours.

SUPREME COURT HAS TOTH CASE

WASHINGTON (AP)—Former airman Robert W. Toth has carried to the Supreme Court his fight against standing trial before an Air Force court-martial in connection with the 1952 slaying of a South Korean civilian.

Toth's lawyers yesterday asked the high court to overturn a U. S. Court of Appeals decision that he may be court-martialed. The attorneys said the Toth case goes into the question of "whether and to what extent . . . Congress can convert our democratic civil government into a military oligarchy."

The appeals court decision upheld the constitutionality of a section of the uniform code of military justice applicable in Toth's case.

Toth, a steel worker following his honorable discharge in December 1952, was arrested by military police in Pittsburgh May 13 last year. He was flown to Korea for court-martial, but later was returned without standing trial. His lawyers then started a legal test of the validity of the Air Force's action.

NEGOTIATORS STILL TALKING

GENEVA (AP)—Western and Communist negotiators sought today to gauge what common ground they have for deciding the future status of the disputed Indochinese kingdoms of Laos and Cambodia.

The nine Indochina conference participants planned to examine various proposals already submitted by the Laotian, Cambodian and Red Chinese diplomats to see how much they have in common.

Meanwhile, representatives of Red China, the Communist-led Vietminh Viet Nam, Laos, and Cambodia scheduled another get-together to continue their effort at settling the cnflict in the French Union states.

Laos and Cambodia contend they have been invaded by foreign troops of Ho Chi Minh and call for their immediate withdrawal.

Red China's Premier-Foreign Minister Chou En-lai declared earlier this week "foreign troops" should leave the two small kingdoms. But both Chou and Vietminh Foreign Minister Pham Van Dong made clear yesterday this meant they wanted French troops to get out.

5 U.S. AIRMEN TAKEN BY REDS IN INDOCHINA

By JOHN RODERICK

SAIGON, Indochina (AP) — Authorized French military sources said today five American Air Force technicians missing since Monday have been captured by the Communist-led Vietminh.

A French command spokesman said the Americans were captured in the village of My Khe about a mile south of the beach where they had gone to bathe.

The men, stationed at the French Air Force Base of Tourane 450 miles east of Saigon, were taken into the village, then marched southward by their rebel captors, the spokesman said. They were reported last seen by villagers about 10 miles south of My Khe trudging along with 20 French Union war prisoners.

Search Party Sent

A search party was sent to the village as soon as this was learned but they found nothing. Other patrols searched the area. The village, though not held by the Vietminh, has been described as "suspect." Rebel forces have been seen slipping in and out of the hamlet after dark.

The five Americans drove from the base without passes Monday in a French weapons carrier and headed for the beach. The group spent some time at the beach then headed south through a coastal area described by a U.S. spokesman as "infested with Vietminh."

Following selection by a panel of seven judges, the new queen was to receive her crown from Joseph C. Feagley, Lancaster, president of the State Chamber of Commerce and vice president of Armstrong Cork Co.

STRIKERS VETO TRANSIT TERMS

HARRISBURG (AP)—A strike by some 250 union employes of the Harrisburg Railways Co. today went into its third month following union rejection of a company wage offer.

In a secret ballot last night the strikers voted 182-63 against accepting the utility's proposal that would have provided an eight cent and hour wage boost spread over 18 months and new vacation benefits.

The company's bus operators have been on strike for 61 days. No meetings between company and union officials were scheduled following the vote.

Company Requests Ballot

The balloting was conducted by the Pennsylvania Labor Relations Board at the request of the company.

Following a company proposal, no speeches were made to the union members either for or against the utility's offer prior to the vote. Union international Vice President John M. Elliot and union Atty. M. Herbert Syme stayed away from the balloting purposely.

The union contract which expired Jan. 31 carried a wage scale of $1.50 to $1.70 an hour, plus fringe benefits.

The utility said it proposes to spend $30,300,000 on new construction through 1958.

Harvey Haddix Snaps Giants Win Streak With 3rd Shutout With His 9th Straight Victory

By BEN PHLEGAR
Associated Press Sports Writer

If some of the major league's best pitchers turned up with aching backs today they had a good excuse.

They'd been busy taking bows for last night's games when in every active park in the two circuits there was at least one hurler who had covered himself with glory.

At the Polo Grounds it was Harvey Haddix of the St. Louis Cardinals. The pint-sized lefthander snapped the New York Giants' six-game winning streak with his third straight shutout, 5-0. In winning his ninth consecutive game Haddix ran his string of scoreless innings to 32, longest in the majors this season. He also increased his top-ranking strikeout total by 7 to 86 and his overall record to 11-3. Nobody else has won as many as 10. Stan Musial hit his 22nd home run, tops in both leagues.

Vern Law Shines

At Forbes Field Vern Law, one of the National League's brightest rookies, allowed Milwaukee only three singles and won the game 2-1 for Pittsburgh with a bases-loaded single in the last of the ninth. Warren Spahn, Law's mound foe, was no slouch, giving only five singles.

Corky Valentine, another rookie, outduelled Curt Simmons as Cincinnati shaded Philadelphia 2-1. Simmons, the victim of the Phillies' weak hitting in his last two outings, drove in the only run for the losers. Wally Post collected four hits and drove in both runs for the Redlegs as Valentine carefully spaced seven safeties.

The joy in Flatbush came from Don Newcombe's first complete game since May 7. The big right-hander turned back Chicago 6-3 as the Dodgers chipped the Giants' league lead to a single game. Newcombe struck out eight, all in the last six innings. Gil Hodges homered twice.

Yanks Shade Chisox

The National League had no monopoly on the outstanding performances by pitchers.

In the American League Cleveland beat Boston 2-0, New York shaded Chicago 7-6, Philadelphia edged Detroit 2-1 and Washington outlasted Baltimore 7-5 in 13 innings.

And here's how the pitchers fared in the junior circuit:

Mike Garcia of the Indians turned back the Red Sox on four singles for his ninth victory, his club's ninth straight triumph and the Indians' ninth success in nine meetings with Boston this year.

Parnell In Action

The only solace for the Red Sox was the first pitching appearance since April 24 of Mel Parnell. The lefthander, recovering from a wrist fracture, pitched one inning in relief and retired the Indians in order.

At Comiskey Park in Chicago a pitcher starred in a different role Bob Grim, called in as a relief man in the fifth, won the game with his hitting. He singled home two Yankee runs in the sixth and hit his first major league home run with one aboard in the eighth.

Grim needed help from Johnny Sain in the ninth. Phil Cavarretta reached him for a pinch hit home run and Carl Sawatski bashed a pinch hit double. Singles by Nelson Fox, his fourth hit, and Ferris Fain produced one more run by George Kell grounded out with the tying run on third.

8th For Porterfield

It was the seventh time in nine games the White Sox have lost to New York and the fifth time they've lost to the Yankees by a single run.

At Briggs Stadium in Detroit young Arnold Portocarrero checked the Tigers on four hits and was in complete command after Ray Boone's first inning home run. Only a week ago the Tigers had beaten the rookie 16-5.

In Baltimore Bob Porterfield of the Senators stayed 13 innings for his eighth victory. The Orioles battered him for 16 hits but he remained in control. Jim Busby singled home the two winning runs in the 13th. Mickey Vernon hit safely his first five times at bat.

ZULUETA WINS WITH DECISION

NEW YORK (AP)—Orlando Zulueta, the clever Cuban light-weight with the talented left hand, today was biding his time waiting for Paddy DeMarco and Jimmy Carter to get on with their title fight, after evening an old score with Johnny Gonsalves.

While waiting for the champion and ex-champion to set a new date for their rematch, Zulueta is going back to Cuba to get married, buy land and build a house.

Zulueta won a unanimous decision over Gonsalves in 10 rounds in the stillness of Madison Square Garden last night. The International Boxing Club didn't announce any attendance figures but there couldn't have been more than 1,500 people.

Nobody got hurt. There were no knockdowns, no solid punching but a fine display of boxing skill and defensive work.

The Yankees blotted out the hopes of the Tigers bid for a tie for first place by winning a 7-4 decision in the Little League, Friday evening.

Townsend of the Tigers and Nichols of the Yanks turned in fine pitching performances as both went the distance. Nichols gave up seven hits, struck out eight, walked five, and received the win. Townsend allowed eight hits, struck out 13 and didn't issue a pass.

The Yanks produced a run in the second inning when Furney singled and came all the way home on two outfield miscues. Three more runs crossed the plate in the Yankees' half of the third. Swope got on via an error, Nichols and Furney singled, and another infield error produced the tallies.

Tigers Explode

Nichols held the Tigers to a one-hit shutout up to the fifth inning but in the fifth the Tigers produced three runs on four hits. Keith Johnson took first by way of a miscue, Heikkinen walked, while Dreas, Townsend and pinch-hitter. Mike Codori rapped safeties to narrow the margin.

The Yankees went way out in front in the fifth as they rallied to send three more runs home. A double by Nichols and consecutive triples by Fissel and Richardson, with the aid of an error, manufactured the runs.

In the final frame the Tigers' Carl Johnson singled, brother Keith was hit by a pitched ball and a walk to Heikkinen loaded the bases. Jim Bricker singled but only one run scored as K. Johnson was cut down at the plate.

Nichols, Furney and Fissel collected a duo of hits for the Yankees while Bricker landed the same number for the Tigers.

CHAMP'S EYE DELAYS PLANS FOR RE-MATCH

By JACK HAND

NEW YORK (AP)—Rocky Marciano's sliced left eye is the only hitch to an early announcement of a Marciano-Ezzard Charles rematch Sept. 23 at New York's Polo Grounds.

Charles insists "I'll be ready in 10 days" after getting a medical green light from the New York State Athletic Commission. The 32-year-old Cincinnati Negro still is puffed around the face and lips and wears a patch of tape over the right eye.

The gash over Marciano's eye, dating back to a butt from Johnny Shkor in a 1950 fight at Providence, required 10 stitches from the needle of Dr. Vincent Nardiello who first cleared away the scar tissue.

"I think he won't be able to go into the gym for a month or six weeks," said Manager Al Weill. "We won't take any chances until it is completely healed."

How about a September match with Charles?

"He's the match if we go over here," said Weill. "We had all intentions of going to London to box Don Cockell until Charles made his real stand.

"If Charles is ready (and he says he positively will be) and if Marciano is ready (a matter of six weeks) we'll probably make the match for New York in the fall."

The I.B.C. still was counting cash yesterday, coming up with a gross gate of $543,092.24, not including $35,000 from radio and an estimated $122,500 from theater television. The movies were reported doing fine business. On the basis of the figures known and an estimate of the theater-TV, Marciano will get about $247,136 and Charles $123,568.

2 TEENAGERS LEAD CARLISLE GOLF TOURNEY

CARLISLE, Pa. (AP)—The accent was on youth today in the 31st annual Central Pennsylvania Golf Tournament with two teenagers leading the championship flight into first round competition.

Don Chornak and John Boyanowski, 19-year-olders from Harrisburg's Colonial Country Club, finished in a deadlock for medalist honors in qualifying rounds yesterday over the 18-hole, 6,300-yard Carlisle Country Club course.

Their 72's narrowly edged out Boyanowski's older brother Jim, who posted a 73.

Semi-final and final rounds in the competition will be held tomorrow. Sixteen golfers of the 60 who entered the competition posted 76 or better to qualify for the championship flight.

Chornak and Boyanowski will playoff for the medal at a later date.

Opening with a bogey five on the first hole John Boyanowski went on with one-under figures on the next 17 holes to tie Chornaks total.

Chornak, who played on the Washington and Jefferson College golf squad, posted a one-under 34 on the out nine and came in with a 38.

Fourth place in the qualifying round was a four-way split between Dick Burgeon, Carlisle; Ralph Scrafford, Carlisle; Larry Shaw, Harrisburg; and Cy Dixon, Cool Creek. Each posted a 74.

A seven-way playoff for the last six positions in the title flight among the golfers who shot 76's was averted when Gordon Malle, Colonial, was not on hand for the playoff and was dropped into the second flight.

Eastern League

By THE ASSOCIATED PRESS

A Williamsport righthander with a score to settle can claim most of the credit for shoving the Elmira Pioneers out of a virtual tie with the Wilkes-Barre Barons for the Eastern League lead.

Don Carlsen, who earlier this season lost a shutout to Elmira in the ninth inning, last night blanked the Pioneers 5-0 at Williamsport. That left Elmira a half game off the pace as the Barons split a double-header at Binghamton. Wilkes-Barre took the first, 7-4. The Triplets countered with a 2-1 decision.

Allentown won the first game of a doubleheader with the visiting Albany Senators, 8-3. Albany took the nightcap, 5-3.

In a single game at Schenectady, the Blue Jays dumped the Reading Indians, 4-3.

WINS TENNIS TITLE

WEST POINT, N.Y. (AP) — Tim Coss, 21-year-old Swarthmore College junior from Washington, D.C., today held the Eastern Intercollegiate tennis championship by virtue of a 6-2, 7-5, 6-4 victory over Herbe Browne, North Carolina U.

Coss dominated the play yesterday all the way, encountering difficulty only in the second set. He had been seeded second behind Browne in the pre-tourney listings.

YESTERDAY'S STARS

PITCHING—Harvey Haddix, St. Louis Cardinals, hurled his third straight shutout in beating the New York Giants, 5-0.

BATTING—Wally Post, Cincinnati Redlegs, collected four hits and drove in both runs as the Redlegs defeated the Philadelphia Phillies, 2-1.

GENE LITTLER CAN DUPLICATE JONES "SLAM"

By HUGH FULLERTON, JR.

SPRINGFIELD, N.J. (AP) — Not since Bobby Jones' "grand slam" year of 1930 has one player been able to win both the open and amateur golf championships of the United States within the span of less than a year.

Gene Littler could be the next one to do it and today will tell whether the Californian has the stuff that makes a Jones—or a Ben Hogan—or whether he's just another promising young golfer.

Littler won the amateur title at Oklahoma City last September. Now he's showing the way in the 72-hole open championship at the halfway point with a 70-69—139.

Pressure Will Be On

He's up against the long, cruel Baltusrol course that has virtually defied the efforts of the world's best golfers to shatter par for two days.

And today he'll learn what pressure is like—the pressure of playing for $6,000 prize money and a title that is worth infinitely more.

Going into today's final 36 holes, with just 50 players left out or nearly 2,000 who originally entered and 162 who started play here Thursday, Littler had a two-stroke margin over defending champion Ben Hogan and lame-armed Ed Furgol, tied at 141. Lloyd Mangrum, Cary Middlecoff, Dick Mayer and Al Mengert were four strokes behind at 143.

Bobby Locke, Tommy Bolt, Bob Toski and Dick Chapman, who shot the lowest 18-hole score of the tournament, had 144's. Sam Snead and Billy Joe Patton had 145's and Jack Burke and Freddie Haas 146's.

YOVICSIN HAS FINE RECORD

John Yovicsin, who begins his third season as head football coach at Gettysburg College this fall, has one of the finest records of any young mentor in the East.

In two seasons since taking over for retired coach Henry T. Bream, the 35-year old Steelton native has directed Gettysburg teams to 14 wins against only four losses. In 1952, the Bullets won six and dropped three, and last season, after losing to the University of Delaware in the season-opener, turned in eight consecutive victories for the finest season in the history of the school. No team has been able to beat Gettysburg by more than two touchdowns during the past two years, and only Delaware, in a 19-7 game, was able to turn the trick by that large a margin.

Yovicsin, married and the father of three boys, was graduated from Gettysburg in 1940. As an undergraduate, he earned varsity letters in football, basketball and track, and has gone into the record books as one of the college's greatest ends. He coached at Valley Forge Military Academy and Middletown, Pa., high school before returning to Gettysburg in 1948.

News Of Special Interest To The Automobile Owners Of Adams County

When You Change Makes, It's A Good Plan To Forget A Lot About Old Car; Significant Differences

By FREDERICK C. RUSSELL

Some cars are like atoms — always going to pieces.

One of the important things for the car owner who shifts makes is to forget a lot about the old car. Some of attentions he gave it may be actually detrimental to the new car, for in spite of a certain similarity in design there often are significant differences.

In addition, the old car may have fallen way below standard in efficiency with the result that the driver had to favor it with certain unorthodox procedures such as pumping on the accelerator pedal in order to get a cold start. This same trick with any new engine simply loads it up with raw gas and is a definite handicap. The new car may have self-centering, self-adjusting brake shoes, or even on brakes. Its automatic drive may be quite different from the one on the older car.

A transparent top should not be dry dusted. In spite of the trend back to the thousand-mile lubrication a current buyer may find himself with a new car that uses the same oil for the torque conterter as for the engine, requiring but two oil changes a year.

Often the noises we hear in the car do not originate where we think they do because cars have a way of fooling us. Recently a reader thought that an odd noise heard when backing the car out of the garage was due to the universal joints or perhaps the automatic transmission which has a quaint way of being unpredictable when cold. But a mechanic, listening from the outside, quickly traced the noise to the right rear brake. Its drum was filled with brake dust which interfered with action of the shoes at certain times.

Coming: Operation Exhaust

When the automobile industry relaxes its current mania for styling many observers predict that it will begin to play around with the exhaust system in an effort to get rid of the hazard of carbon monoxide and other noxious components in exhaust gases. Plain hint of this is found in recent announcement of a special catalytic device which, attached directly to the engine exhaust manifold, eliminates much heavy smoke and odor from diesels. This will be a direct help to the motorist who often finds himself behind a smoking trailer truck.

These oxidizing catalysts are known as Oxycats in the trade. They are the same as have been used to check smoke stack pollution and waste heat in many of the country's largest industrial plants. Much of the interest in gas turbines for automobiles is the fact that part of the exhaust output is fed back ino the system again.

Mechanic Joe Speaking

"Some owners of older cars have been putting up with overheating just because they believe it is necessary to remove the radiator to replace the corroded water distribution tube in the motor block. While it is true that the radiator has to come off later model cars to make this replacement there often is sufficient room on the older jobs to simplify the process. In all cases, however, the water pump must be taken off in order to uncover the water distribution tube. Latter can be removed with a stiff hooked tool."

What Does It Cost?

How long should it take a mechanic to do some of the simple jobs on our cars?

Many ask this question. Much depends on the make and model car in question. For instance, it takes less than a half hour to replace the radiator hosing on one car while the job runs to over an hour on another. Replacing a muffler is a two-hour operation on one car but slightly over a half-hour on another. Bear in mind, however, that these are flat rates based on averages and do not take into account some of the special complications which may develop. I have seen a muffler job run into a real battle where things became badly rusted.

For Future Reference

There's no need to examine the fuel pump to tell whether it is the type with a booster for the vacuum windshield wiper. If it is this double type pump there will be a tube from the intake manifold to the pump.

Pinhole leaks in pistons are not unusual. They can be detected by turning the piston upside down and pouring in a little gasoline, after the piston has been thoroughly cleaned of carbon. Do not fill higher than the bottom of the first ring groove, however.

Picked Up En Route

Brake master cylinders can be reconditioned by using a special liner. . . . In addition to special rice mechanics are using a blast material consisting of sharp cornered crushed black walnut shells for removing carbon deposits. . . . Newest tire gauges are not only reliable but have easy-to-read calibrations from 16 to 36 pounds in one-pound units.

How's That Cooling?

Even though the engine runs cool enough and there are no evidences of trouble with the cooling system it is a good idea now and again to give the radiator contents what is known as the "finger test." That is, just stick your finger in the coollant when the engine is cold and see what you see. Your finger may pick up definite evidences of rust. Or your finger may come out oily.

The rust will be a tip-off to use a good rust inhibitor. I prefer the soluble oil type because it also helps lubricate the water pump internally. Incidentally if the oily deposit on your finger isn't too great, and the oil feels lighter than engine oil, you may be getting proof that soluble oil inhibitor has already been installed. But if the oil is heavier you may need to do some checking because it indicates an oil leak at the cylinder head gasket. Grease in the system would indicate overlubrication of the water pump. Sediment and much in the system calls for prompt cleansing.

Keep These In Mind

Burned points are not the only proof that spark plugs are too hot a type. If plugs are not cool enough the insulator may blister.

Brake dust, when combined with water that may get into the brakes forms a soap-like substance that is slippery to the point of rendering the brakes temporarily useless.

You can get better motor braking with automatic transmissions by slowing down when starting a downgrade, even if the decline isn't steep enough to require puting the selector lever in the "Low" position.

Having Their Troubles

Q. I have noticed a peculiar condition with the power brakes on my car. When I start the engine the brakes apply themselves. H. L.

A. This indicates a faulty control valve. You will find that the air "poppet" doesn't seat propertly.

Q. What is best for clearing small spots from a convertible top? Wm. K. J.

A. Art gum erasers are effective. You may need to follow with a washing, using a mild soap.

Q. In spite of the fact that the engine of my car shows fairly good compression oil mileage isn't what it should be. Also I notice that there is smoking at the exhaust, indicating that the oil burns off and doesn't just leak from the motor. H. N. B.

A. I suspect that the oil return holes in the pistons are clogged. Looks like an opportunity to use some additive in with the engine oil.

Q. Why is it especially important to use a torque wrench when tightening cylinder heads on overhead valve engines without hydraulic valve lifters? T. G.

A. V alve clearances are affected by the degree to which the head is drawn down and the gasket is compressed. Follow the manufacturers directions closely.

Q. Why is there more torque at moderate engine speeds than at high speed: H. F. C.

A. This is because at lower speeds there is more time for a greater weight of air and fuel to enter the cylinders on the intake stroke. There is higher pressure during the power stroke and thus stronger thrust on the piston.

Q. What is the principle of a vibration damper? N. N. V.

A. The damper is a sort of extra flywheel which operates so as to maintain a constant speed when the crankshaft tries to oscillate.

Q. We have done considerable checking in an effort to determine the cause of a low speed shimmy. There's also evidence of wobble of the left front wheel, but replacing the wheel hasn't helped. Everything has been carefully balanced. G. McB.

A. Since you have gone into this in such detail I'm going to suggest something off the beaten track in asking whether you have checked to see if the left front wheel spindle is bent.

Q. Sometimes the starter pinion doesn't mesh with the flywheel and I have to get a push. What's wrong? W. K.

A. Probably the starter drive spring is bent.

Mr. Russell will answer questions regarding the safe care and operation of your car. Just address him at 254 Fern St., West Hartford, 7, Conn., and enclose stamped, self-addressed envelope for a personal reply. There is no charge.

Squirrel Found Thief Of Army Vet's Wallet

GALT, Mo. (AP) — Home on an Army furlough, Justin Holt helped his brother put up hay. He lost his billfold containing $28.

Months later the billfold, not a bit damaged and with the cash still in good shape, turned up below a squirrel den tree. The Holts figured some bushy-tail was attracted to the leather wallet and hid it in his nest. Then, apparently the squirrel's interest faded and he pushed it out of the nest.

FRENCH PREMIER GOES TO GENEVA FOR PEACE TALK

GENEVA (AP)—French sources expressed belief Friday that France's new premier, Pierre Mendes-France, will fly to Geneva Monday to take part in the Indochina peace talks.

These sources said Mendes-France is expected to take over the post of foreign minister himself in the new Cabinet and give his full personal attention to the Indochina problem. He has promised to resign unless an Indochina settlement has been reached by July 20.

Most diplomats here were reluctant to comment on the French National Assembly's approval of Mendes-France.

May Cause Rift

British sources said that, in view of his statements on the Far Eastern fighting, chances of a settlement might be increased by his approval as premier. Some other delegations expressed private views, however, that a rift might develop among the Western powers if Mendes-France made concessions which the United States would not agree to.

The Indochina peace talks continued Friday but prospects of progress awaited the naming of the new French Cabinet and further clarification of the new Communist proposals.

Western delegates hoped to find out at the secret conference session Friday afternoon more about the meaning of the points advanced Wednesday by Red China's Chou En-lai.

U.S. sources, after a careful study of Chou's remarks, indicated their delegations felt there was little or nothing new in them. They were said to call for (1) a simultaneous cease-fire, (2) negotiations between the opposing military commands both here and in Indochina, and (3) a ban on movement of troops and arms into Indochina.

SENATE PASSES DEFENSE BILL

WASHINGTON (AP) — Working against a July 1 money deadline, the Senate was over its biggest hurdle today with approval of a $29,216,584,486 appropriation for the nation's defense during the fiscal year starting next month.

The annual money bill for the Army, Navy, Air Force and Defense Department went through on a voice vote late Thursday after the 50-38 defeat of a Democratic drive to give the Army another 350 million dollars. The Democratic move was aimed at preventing a planned cutback of two Army divisions.

Goes To Conference

The bill now goes to a Senate-House conference committee to iron out a number of differences between the Senate and House-passed versions.

The defense measure is by far the largest, moneywise, of the yearly appropriations bills Congress must vote to run the government. Of the 29 billion dollars okayed by the Senate, approximately 11 billions is earmarked for the Air Force, 10 billions for the Navy, 7½ billions for the Army, and the remainder for the Defense Department and related activities.

The total is nearly a billion dollars below President Eisenhower's request and more than five billions below what Congress okayed last year.

"Bad Man" Held In $43,000 Bail

ATTLEBORO, Mass. (AP)—Arthur W. Weir, 34, of Hatboro, Pa., whom state police describe as one of the worst "bad men" in the East, is being held for the grand jury after pleading guilty in Fourth District Court to a charge of breaking and entering.

Weir entered his plea Thursday but at the same time pleaded innocent to charges of possession of burglars tools, possession of a pistol without a permit and possession of a hypodermic needle.

Bail was set at $43,000.

He and a companion were discovered by North Attleboro police Sunday night as they allegedly attempted to break into a restaurant. The two fled by car and were captured after a 100-mile-an-hour chase in which police fired several shots.

New Hampshire and Connecticut police have questioned Weir about robberies in those states.

HUGE STILL BURNS

PHILADELPHIA (AP) — A new 2,800-gallon still at the Gulf Oil Refinery in Southwest Philadelphia was swept by a three-alarm fire Thursday night.

Huge tongues of flame and heavy black smoke, visible for miles, blanketed the area.

The fire was brought under control in about an hour and a half. Workmen said the still was one of the most modern and costly pieces of equipment in the refinery. They said it had been in operation only about two weeks but was operating almost at capacity.

Rookie pitcher Bob Trice of the Athletics is known as a good hitter, too. He hit four homers and five doubles last season for Ottawa in the International League.

Two Men Drown When Boat Upsets

EASTON, Pa. (AP) — Two men drowned and a third man was rescued after their boat overturned when it failed to negotiate a sharp turn on the Delaware River near Portland, 20 miles north of Easton.

The dead men were identified as Charles Marth, 28, of Stockertown, and George Blaine, 26, of Hackettstown, N.J. Blaine was the father of three children. Their bodies were recovered early Friday.

The third man, Carlton F. Brady, 34, of Stephensburg, N.J., told police the boat overturned last evening as it rounded a sharp turn at high speed. He clung to the boat until rescued by a tavern owner, Lawrence Dolsen, who spotted the overturned craft. Dolsen rowed out to the boat and pulled Brady aboard.

New Oxford

NEW OXFORD — The annual picnic of the Sons of Union Veterans will be conducted, with the assistance of its Ladies Auxiliary, on Saturday afternoon and evening, June 26, beginning at 4 o'clock, with menus of turkey and chicken corn soup, also a variety of lighter refreshments on sale. The picnic, proceeds from which will go to defray the expense of the recent Memorial Day observance, will also feature musical entertainment and amusement.

The four Sisters of Mercy who teach at the parochial school here and reside at the local convent have left to spend more than a month on summer assignments.

The monthly meeting of the Women's Guild of Emmanuel Reformed Church, Hanover, was conducted June 15 at Bowman's Cottage near Brown's Dam.

A special training class for young boys of the local Catholic parish who hope to serve as altar boys when the autumn resumption of high masses on Sundays takes place has been instituted on Monday, Tuesday, Wednesday and Thursday of each week for a brief period in charge of Father Gregorio Donoso, S.J., serving the parish during the European tour of the Rev. Philip J. Gergen, pastor.

The regular Sunday evening devotions of the local Catholic parish, along with the devotional meeting of the Blessed Virgin Sodality just prior to the devotions, has been suspended during the summer vacation period.

A large group is expected to spend Sunday on a day-long picnic at the Bevenour cottage near Berlin Junction as an end-of-term event for the 19 eighth graders who were graduated from the local parochial school June 4. The young people will spend the time swimming and other outdoor sports from 11 a.m. to 7 p.m., dividing the day with a basket luncheon.

Arrangements have been begun by men of the Holy Name Society of the Catholic parish to conduct representations during the summer weekends in the annual laymen's retreats to be given at Mt. St. Mary's College campus, Emmitsburg, probably beginning in late July.

A group from here are acting as solicitors now to sign up fellow members and help them with arrangements for attendance. Solicitors are: John Paul Smith, Joseph Hockensmith, Joseph Kaiser, Nelson Orndorff, Regis Gebhart, Leo Poist, Donald Groft, Cletus J. Billman, John A Staub and Fred G. Klunk.

A publication, "The Retreatant," has been issued by the diocese to stimulate an interest in the activities to be offered, with information as to accommodations and regulations.

Dillsburg

DILLSBURG — The State Bureau of Highway Safety has reported suspension of the operator's privileges of Leonard J. King, Wellsville R. 1, on a charge of failure to stop and disclose identity.

A marriage license has been issued at York to Bud Sterner Lerew and Janet Louise Pentz, both of Dillsburg R. 1.

Dr. and Mrs. Arthur N. Breuer, Hanover, became parents of a son June 12 at the Hanover Hospital. This is their third child. Dr. Breuer made his home for a time at York Springs where he practiced dentistry before entering the army during World War II.

Among the class of about 2,200 members graduated at the 198th Commencement of the University of Pennsylvania June 16 at the Philadelphia campus was John R. Rinehart, Dillsburg R. 3.

Miss Evelyn L. Seifert, daughter of Mr. and Mrs. John W. Seifert of the Dillsburg area, was installed as Honored Queen of Bethel No. 4, International Order of Job's Daughters, Lancaster, at a meeting this week in that city.

Preparations are nearly completed for the annual outdoor festival on the grounds of Bermudian (Mt. Olivet) Reformed Church, Saturday, June 26. All proceeds of the festival are to be put into the fund to install a new heating plant this summer in the church.

CHOOSE GROVE CITY

CHAMBERSBURG, Pa. (AP)—Delegates to the 73rd Annual Conference of the Pennsylvania Synod of the Presbyterian Church in the U.S.A. voted Friday to hold the 1955 conference at Grove City College, Grove City.

The Woman's Synodical Missionary Society also picked Grove City for its meeting next year.

ADVERTISE IN THE TIMES

PAKISTAN BRIDE MARRIES AMID REGAL SPLENDOR

WASHINGTON (AP)—Three days of elaborate prenuptial preparation—and a trousseau that would stagger an American bride—highlighted the wedding at the Pakistan Embassy of pretty Dr. Nafis Sheaib, daughter of the executive director of the World Bank.

The bridegroom, who did not see his bride until after the ceremony, which was performed according to Muslim (that's the way it's spelled in Pakistan) tradition, was handsome Capt. Azhar H. Sadik of the Pakistan army, who arrived in this country for the first time the day before. A fine sportsman, named best all-around athlete during his college days, he was formerly aide de camp to Pakistan's governor general.

Athletic Bride

The bride, who is exquisite, with large dark eyes and graceful manner, plans to practice medicine in Pakistan after a typically American honeymoon to Niagara Falls and New York. She was attached to the City Hospital at Baltimore during the past year. She has a beautiful singing voice, likes riding and tennis and has won more than 70 cups and medals for her skill at badminton and table tennis.

The colorful ceremonies saw the use of the traditional Ubatna and Menhdi. The first is a preparation of scented herbs said to be very good for the complexion. The second is a loaf of paste used for coloring the nails. Herbs, scents, oils and paste are all taken to the bride on silver trays and in silver containers after the bridegroom's mother, or proxy, takes her a set of saffron-colored robes.

A ceremony is performed by the bride's maids—a mud-pack bath, the anointing with scents and oils and the coloring of the nails.

Then there was the trousseau preview! Such an array!—101 saris, of many beautiful colors, of finest silks, band-embroidered in gold and beaded in exquisite patterns; several ghararas, or skirts, brocaded in gold and silver; 21 pairs of American made shoes with matching bags; slippers from Pakistan, gold embroidered, a chest of silver, trunks of linen and lingerie besides many other queenly treasures. The bride's eyes sparkled as she surveyed the array.

"Enough to last for years," she sighed.

The wedding costume, traditionally the gift of the bridegroom's family, was a soft vermillion, the skirt richly trimmed with hundreds of loops of gold beads and the tunic of matching silk, also embroidered in gold. The bridegroom also produced a beautiful gold-embroidered veil of the finest silk, jewel-like slippers and matching bag. Another of the gifts was a delicate little hand-wrought silver bottle containing mascara for the eyelashes.

Dean Of Scribes, 98, Began As Typesetter

PITTSBURGH (AP)—Dr. Richard T. Wiley, columnist for the weekly Elizabeth (Pa.) Herald, is running out of material to write about. He is 98.

Wiley turns out three columns a week, two on local history and another called "Wiley Wit and Wisdom." He thinks he is the oldest working newspaperman in the country.

Starting as a typesetter at 19, he has been almost continuously with the Herald since then. In 1876, he became editor and publisher. He is also the author of several books, which brought him an honorary doctorate of literature from Washington and Jefferson College, of Washington, Pa.

Injured in an automobile accident in 1949, he is confined to a rocking chair.

"I'm beginning to feel like an old man," he admits.

His memories go back to the Civil War. He recalls the beginnings of electric light, the phonograph, movies, radio, automobiles.

He considers radio the one invention in his lifetime having the most far-reaching effects. He sees little real change in the small weeklies, but metropolitan papers "put too much emphasis on crime these days," he says.

In his columns, Dr. Wiley practices the nearly lost art of the paragrapher.

Homey Admonitions

"It is a good thing to have money in circulation constantly. A good way to accomplish it is for all to pay debts promptly."

Or:

"A fellow should not get puffed up over the idea that he can break the law and always get away with it. The turkey that evades the Thanksgiving axe often gets it in the neck about Christmas."

EX-SPORTS ACE RECALLS MATE'S WORD ON FALLS

By JANE EADS

WASHINGTON (AP) — Mrs. LaVern Dilwig, wife of the former Democratic congressman from Wisconsin, had just fallen down a flight of 20 steps when I met her at a luncheon party.

Her husband, a Marquette University All-America football star in 1926 and for 10 years a player with the Green Bay Packers, had always warned her, she said, to "get limp" if she ever fell and she wouldn't get hurt so badly.

"I didn't have time to think about getting limp," tall, good-looking Mrs. Dilwig explained, still shaking from the experience and worrying about her bruised nose. "I was carrying a big box of clothes to take to a rummage sale. I couldn't see and missed the top step."

Met As Athletes

An athlete in her own right, Mrs. Dilwig, the former Eleanor Coleman of Milwaukee, swam in the Olympics in 1924. She met her husband while writing a column on "Women in Sports" for the Milwaukee Journal. "I interviewed the big football star about what he thought of women in sports," she recalled with amusement. "He took a very dim view of it. We were married four months later."

Dilwig, after serving in Congress four years from 1924, is practicing law, with offices here and in Green Bay. "The minute school's out, we go out to Wisconsin and stay all summer," Eleanor said.

The Dilwigs have four chidlren: Jack, 22, Robert, 19, Gary, 17, and Diane, 15. Jack is getting married to pretty Marcia Billings, daughter of Mr. and Mrs. Roger Billings of Boston, the day after he graduates from the Naval Academy at Annapolis, Md., in June.

Last-Minute Break

"He wanted to get married in the academy chapel but almost didn't make it, "his mother said. "Prospective bridegroom graduates make reservations months, sometimes a year ahead. Weddings start at noon the day of graduation and one takes place every half hour through a four-day period. Jack got his break when one reservation for the day after graduation was canceled."

Robert Dilwig a student at Marquette is on the football team, Diane is attending public high school here. "Gary is the future president of the United States," his mother said. "He's avidly interested in American history and politics."

16,000 STATE WORKERS GIVE $411,670 TO GOP

HARRISBURG (AP)—State Elections Board records Friday showed some 16,000 state employes contributed $411,670 to finance the primary campaign of the Republican organization slate of GOP candidates headed by Lt. Gov. Lloyd H. Wood for governor.

Kenneth Long, Leechburg, collector for the controversial state employes' campaign contributions, reported $320,212 of this amount spent for the May 18 primary election.

Thursday was the deadline for filing primary expenses accounts with the bureau.

Long's report showed $266,100 of the receipts went to the Republican Primary Campaign Committee. Other amounts were transferred directly to GOP county committees.

The special fund to collect donations from state workers was set up by Gov. John S. Fine.

Jury Probes Collections

The contributions by state employes now is being investigated by the Allegheny County grand jury on demand of Dist. Atty. James F. Malone, long-time political foe of Gov Fine. Malone charged state workers were forced to contribute under penalty of losing their jobs, a violation of state law. Voluntary contributions are permitted by law.

Long's committee showed a balance of $91,458. Distributions included $20,000 to Allegheny County; $10,000, Luzerne County; $3,000, Carbon County; and $1,000, Pike County.

Another $10,000 went to the Ralph T. Bell campaign committee and $5,000 to the Gaynelle M. Dixon campaign committee. Mrs. Dixon defeated incumbent William S. Livengood Jr. for nomination for secretary of internal affairs. Bell won nomination for the Superior Court.

Long's report listed $150 donations from cabinet members and other state officials. Mines Secretary William J. Clements gave the most with a $500 donation.

Other donations included Arthur Burgoyne, deputy revenue secretary, $140; William W. Behrens, deputy commerce secretary, $120; Warren Wheaton, Fine's public relations director, $120; C. H. Buckius, highways department chief engineer, $140; Thomas C. Egan, public utility commissioner, $140; Fred P. Hare Jr., Fine's administrative assistant, $100, and Lloyd S. Benjamin, PUC chief counsel, $100.

Last day reports to expenditures came from:

Sen. George M. Leader, Democratic candidate for governor, $795 in both receipts and contributions; Genevieve Blatt, Democrat for secretary of internal affairs, $465 spent and $30 in receipts; Mrs. Dixon, $7,518 spent and $7,954 received; Robert E. Woodside, Democrat and Republican for Superior Court, less than $150 spent.

Woman Killed When Auto Overturns

COUDERSPORT, Pa. (AP) — A woman was killed and four others were injured seriously on Thursday when their car overturned in Potter County about 10 miles from here. They were en route from their Massachusetts homes to Ohio.

Dead was Mrs. Peter Romaszko, 54, of Chelsea, Mass.

Admitted to Potter County Memorial Hospital were:

The dead woman's husband and driver of the car, Peter Romaszko; Mrs. Sophie Lazuk, sister of the dead woman; and Mrs. Jewel Durek, both of Chelsea, and Mrs. Josephine Tingykowski, Salem, Mass.

The extent of their injuries had not yet been determined. Romaszko told Walter Taylor, deputy coroner, that he lost control of the car and it rolled over on the side of the road.

CLEAR DRIVER IN 5 AUTO DEATHS

CAPE MAY COURTS HOUSE, N.J. (AP)—Jerome Tysckiewicz, 26, of Shenandoah, Pa., today was clear of charges growing out of a highway accident in which five persons lost their lives.

A Cape May County jury acquitted him Thursday of a charge of causing death by auto.

During the one-day trial, Prosecutor Albert Ash said Tysckiewicz operated his car in a reckless manner when the two-car crash occurred last August on Wildwood Blvd.

But the defendant maintained he had blacked out and could not recall what happened.

Those killed in the smashup were Frank Boews, 51, a Philadelphia policeman; his wife Almira, 43; their son, William; Paul Lazuk, of Shenandoah, Pa.; and Mildred Pylant, 19, Village Green, Pa.

Lazuk and Miss Pylant had been riding with Tysckiewicz.

HOUSEWIFE IS 'BIG WHEEL' IN GA. POLITICS

WASHINGTON (AP) — TV cameramen and reporters assigned to shoot "a day in the life of a typical lady politico" trailed Mrs. Iris Blitch of Homerville, Ga., from morning till night while she moved about with the big wigs at the Democratic party pow wow here.

Mrs. Blitch, as far as looks are concerned, is anything but typical. Appearing much younger than her 42 years, the pretty, slender brunette with big brown eyes could more easily be taken for a cover girl.

Big Political Wheel

Politically, however, she's a big wheel. A member of the Georgia State Senate and of the select powerful Executive Committee of 11 within the Democratic National Committee, she is planning to run for Congress this fall. This only woman member of the Georgia Legislature, she served four years in the House. She is assistant secretary of the Georgian State Democratic Executive Committee.

The wife of B. E. Blitch, farmer, lumberman and druggist, she has a 23-year-old daughter, Betty, who works in an Atlanta insurance firm, and a son, Brooks, 19, a pre-law student at the University of Georgia. Married young, Mrs. Blitch went back to the university with her daughter to take some courses in political science, accounting and English she had missed 20 years before when she deserted her college career.

Busy Builder

Along with building her political fences, she says her hobby is building pasture fences. She also likes gardening. Her husband, she says, is her most enthusiastic supporter.

Invitation lists are getting so big and unwieldy that meticulous Washington hostesses who want to invite everybody they "should" invite are giving two parties for special occasions.

Tree Lifted

Washington's Home Rule Ball Committee, which was headed jointly by Mrs. Montgomery Blair, staunch Republican, and Mrs. J. Bordon Harriman, staunch Democrat, has a bipartisan whodunit on its hands. It seems a 10-foot dogwood tree, loaned for the big home rule shindig by the Woodmount Country Club, was lifted by some aspiring home gardener.

MOTHER'S LITTLE HELPER— Princess Margrethe, 14, heir-apparent to Danish throne, provides light for her mother, Queen Ingrid, at garden party in Fredensborg Castle.

FEW SIGNS OF HARMONY AFTER SECRET MEET OF COMMITTEE

By G. MILTON KELLY

WASHINGTON (AP) —Sen. Mundt (R-SD) indicated today he would go along with a Democratic demand that the Pentagon speed answers to requests for security clearances on two Senate Investigations subcommittee appointees of Sen. McCarthy (R-Wis).

Sen. McClellan of Arkansas, senior subcommittee Democrat and speaking for the three minority party members, demanded publicly yesterday that the subcommittee move fast to find out why, as he put it, the two have not received Defense Department security clearance to handle classified documents for which application was made more than a year ago.

"I will second it," Mundt said in an interview, if McClellan will ask the Pentagon "to take up these cases and say 'yes' or 'no'" on the applications.

Called "Unfair"

Aside from Mundt's comment, there was little sign of harmony between the Republican and Democratic members in the wake of the group's first closed-door meeting yesterday following the hearings' end Thursday. The group plans future similar get-togethers for the job of writing up their report.

Mundt said he understands the two subcommittee staff members, who have not been named, have not specifically been denied clearances despite a delay of 14 months in one case and 15 months in the other.

But he said "it is manifestly unfair to the individual to take so long" because the delay raises possibly unfair questions about them.

All But Two

McCarthy told a news conference yesterday he knows of no staff members "refused clearance" by the military, and knows nothing about any of them that would raise doubts about their loyalty.

The issue cropped up late in the 36-day televised inquiry held by the investigations group into charges hurled between McCarthy and top Army officials. Questions were raised about who had access to possible secret documents in subcommittee files, and the Defense Department sent a letter to Mundt reportedly listing as "cleared" by that agency all applicants but two.

Mundt said he has not looked at the letter to see who was named.

One "Involved"

Sen. Symington (D-Mo), a subcommittee member, said one of the two was "involved" in the McCarthy-Army row but he didn't know about the other.

The fireworks started up after yesterday's subcommittee session when:

1. McClellan held a news conference in which he demanded a "housecleaning" among staff officials, appointed by McCarthy as regular subcommittee chairmen, before the group undertakes any new investigations.

To Probe Senator

2. McCarthy shot back that the Democratic demand was "clever, dishonest anl extremely dangerous to the country."

The Wisconsin senator also recorded for newsreel and television use a statement that he has ordered a staff investigation of "reported just plain wrongdoing," not involving communism, by a Democratic senator whom he declined to name but said was not a submittee member. Then he left town for a week's rest at an unannounced destination.

FRENCH TALKS MAY BE PLANNED

WASHINGTON, June 18 (AP)—Top-level French-American talks on Indochina, European defense, and other critical issues appeared possible today as a followup to the Eisenhower-Churchill meeting opening here next week.

This prospect was brought out yesterday in a letter sent by President Eisenhower to French President Rene Coty and made public by the White House.

Eisenhower, noting he would be meeting informally with Prime Minister Churchill and British Foreign Secretary Eden the weekend of June 25, told Coty he looked forward "to resuming with the government of France such intimate conversations as I have had in the past."

The letter was regarded by diplomats as a gesture of friendship and reassurance by the American leader in advance of a meeting in which the French will not participate, and at a time when the government of France had come into the hands of a new premier, Pierre Mendes-France, on whose ideas American officials have in the past been critical.

East Berlin

EAST BERLIN — Roy Meyers, who has been attending classes arranged for young victims of cerebral palsy at the Garfield school, York, plans to leave June 30 for the eight-week summer camp being arranged for children so afflicted, sponsored by the group for crippled children's projects.

Glatfelter, who is now at the home of her parents, Mr. and Mrs. George R. Glatfelter. His parents are Mr. and Mrs. Harry Trimmer, Hamilton Twp.

William Bollinger, who has been with the army in Germany for several months, recently received his promotion to private first class according to word given to his wife and to his mother, Mrs. Edwin Winters, north of town.

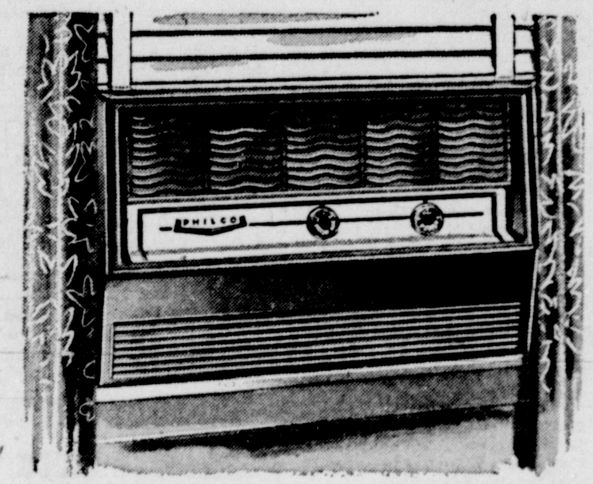

Mr. and Mrs. Thomas F. Senft, who sold their R. 2 house, to Ed Leigh and family, Windsor, plan to move to Bairs Station upon the completion of their new house being built there.

11 Make Speeches

Judge McC. Swope toasted the guest of honor who responded, and after some table banter the gathering listened to the following program: The Legal Profession in the Counties of Franklin and Adams, Samuel S. Neely, Esq.; The Successful Practitioner, William Arch McClean, Esq.; Law in City and County, John L. Kendlehart, Esq.; The Coming Lawyer, Charles S. Duncan, Esq.; The County Solicitor, John Reed Scoot, Esq.; The Bachelors, J. Lawrence Williams, Esq.; Lawyers in Congress, Hon. George J. Benner; Legal Ethics, John B. McPherson, Esq.; Lex et Lingua Latina, Cicero W. Stoner, Esq.; The Senior Counsel in a Case, W. Clarence Sheely, Esq., father of the present President Judge W. C. Sheely, and Our Junior Member, William M. Steffy, Esq.

The meeting proceeded without points of order and was followed by a series of volunteer toasts, at which time Judge Beales and William McSherry also spoke. At this point toastmaster McConaughy closed the meeting with these lines from Romeo and Juliet: "Faith, we may put up our pipes, and be gone."

In addition to those already mentioned the following were present: John L. Hill Jr., William A. Scott, George J. Benner, Edward A. Weaver, George M. Walter, William P. Quimby, J. Lawrence Butt, Charles E. Stahle, Robert E. Wible, William Hersh, Hugh C. Hinkle, and Donald McPherson.

MISS REDDING

(Continued from Page 1)

and Leo Redding Jr., Gettysburg, served as ushers. The mothers of the couple wore grey sheer dresses and corsages of rosebuds. Mrs. Redding wore black accessories and Mrs. Breighner's accessories were white.

A reception followed in the social hall of the church which was decorated with mixed summer flowers and wedding bells. The bride cut a three-tiered wedding cake topped with a miniature bride and groom. After a week's honeymoon the couple will reside at 126 High St., Hanover. As a going-away ensemble the bride wore a sheer blue dress with white accessories and a corsage of red rosebuds.

The bride is a graduate of St. Francis Xavier Parochial School. Her husband, who attended Delone Catholic High School, McSherrystown, spent two years in the service, 12 months of which were in Korea. He is employed at the Keystone Weaving Mills in York.

Out-of-town guests were from York, Allentown, Baltimore, Chambersburg, Hanover, Philadelphia, Washington and New Jersey

HUMAN TRAITS ARE IMPORTANT IN JOB CHOICE

MAIMI, Fla. (AP)—Sure, your personality counts in your work, but can you do anything about it?

Charles W. McFarland says personality tests can show you the kind of work you can do. They can also keep you out of work where you would be a failure. Personality traits that will break you in one job can make you in another.

He thinks he has proved his thesis in hundreds of tests which have solved labor difficulties in Miami industry.

McFarland is an industrial engineer and psychologist formerly of the Purdue University staff. He made tests for such enterprises as a newspaper (Miami Herald), restaurant chain, insurance companies and building contractors in the last three years.

Better Workers

Biggest gains were a greatly reduced labor turnover and happier, more efficient workers.

A cafeteria had a heavy labor turnover. The owner, anxious to serve the public, had too much help. The workers found it confusing, and quie. Fewer employes and a pay raise for those remaining brought far more effective work.

The same tests successfully screen cafeteria workers, engravers, truck drivers, executives, printers and accountants. McFarland's tests put equal emphasis on personality and ability.

"Workers are people first, before they become a part of the labor force," said McFarland, who calls himself a "human engineer."

Skills Secondary

"That's why it's important to get a personality evaluation before considering the skills of a candidate."

One of his tests analyzes how an applicant gets along with people, his home life, his judgment and ability to grasp abstract problems.

"The person with a small vocabulary and inability to communicate with others may not make a good salesman, but might make a very good accountant," McFarland explained. "Nearsightedness is not usually an advantage, but it proved an important qualification for certain workers in a knitting mill."

Most of his clients are companies seeking to smooth out problems concerning labor, but many individuals go to McFarland seeking guidance. The results are sometimes surprising.

A dairy operator was told he would make a good insurance salesman. He became the top salesman in the area within six months. A retired Marine Corps colonel became a transportation executive.

Harpist, 72, Desires To Transfer Skills

STILLWATER, Okla. (AP)—At 72, Charles Laughton is embarking with youthful enthusiasm on a campaign to teach a new generation how to fashion a harp from the raw wood and metal.

An accomplished harpist and violinist and a teacher of those instruments, he has 44 years of harpmaking in his background.

He and Mrs. Laughton raised four musicians of their own, with whom they toured this and other countries as a string ensemble. All instruments were made by Laughton.

Family Trait

Son, Gail, who played with the Oklahoma City Symphony at 18, and Charlotte (Mrs. Melvin Tinsley) are harpists in Hollywood studios.

The first Laughton harp was built in 1910, born of the necessity of equipping his children. Now he has 24 harps in various stages of completion and is looking for capable men to learn the craft—fitting together the thousand pieces, doing the carving and gilding.

"Harp makers have dwindled to a pitiful few," he laments. "I'm probably the only man in the country who can start from scratch and make a harp. The men in the few factories only know their small part of the whole process."

P. I. Seeks To Better World Fiber Position

MANILLA (AP)—The Philippines have eyes set on the world fiber market. Ramie is the islands' best bet although abaca, cotton, jute and kenaf are getting attention from government agronomists now experimenting in a 1,282-acre plantation at Davao on Mindanao.

Philippine ramine plnats are among the world's tallest, 10 feet or more, have high tensile strength and are convertible into various textiles.

Another fiber the islands hope to place on a better competitive position is jute which grows wild. The threatened decline of jute production in Pakistan because of a food shortage there is expected to give Philippine jute a place in the world market.

ATOMIC FLOWERS

ATLANTIC CITY, N. J. (AP)—University of North Dakota scientists told a biologists' meeting here that a single tulip bulb exposed to cobalt radiation will produce up to four blooming plants at a time instead of the normal one. Cobalt 60, a radioactive element, was used in the experiments.

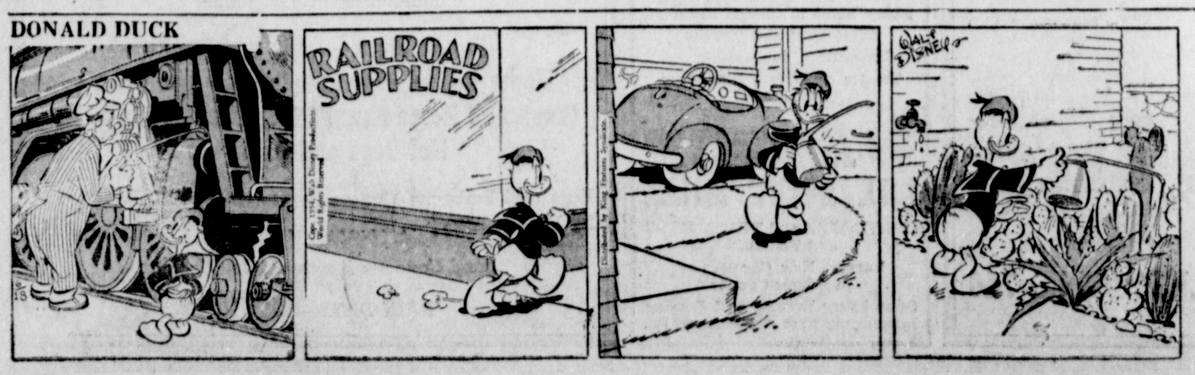

BLONDIE

SCORCHY SMITH

DONALD DUCK

BROWNELL CITES THREAT FROM SENATOR

BALTIMORE (AP) — Atty. Gen. Brownell said on Thursday Sen. McCarthy's invitation to government employes to come to him with information, even information they are charged with keeping secret:

1. Threatens the clasic American concept of separation of powers among Congress, the executive and the courts.

2. "Would substitute rule by an individual for government by law."'

About 500 weekly newspaper editors and publishers attending the 69th annual convention of the National Editorial Assn. broke in to applaud when the attorney general declared:

"Anyone who attempts to put himself above the law, and incite government employes to turn over classified information relating to our national security, is tragically mistaken if he believes he is helping to protect our nation's safety.

Pleasing To Reds

"Nothing pleases the Communists more than to create division among the people on matters of national security, impair constitutional government, and encourage disobedience to the law. . . .

"I have spoken out pretty strongly against those in high places who are blind to the danger of Communist infiltration in our government. I believe it equally important to speak out against those who, regardless of motive, break down our system of government by law in an effort to investigate communism. There is no need for it."

Brownell did not mention McCarthy (R-Wis) by name. But he quoted verbatim the statement McCarthy made during the Army-McCarthy hearings that it was the duty of federal employes "to give us any information which they have."

Brownell said this "open invitation to violate the laws of the United States would substitute rule by an individual for government by law."

PRESBYTERIANS HEAR BISHOP

CHAMBERSBURG, Pa. (AP) — Delegates to the 73rd annual conference of the Pennsylvania Synod of the Presbyterian Church in the U. S. A. Friday discussed selection of a site for next year's meeting.

The 450 laymen and ministers attending the five-day meeting heard final business reports and committee suggestions for the coming year's activities.

Bishop G. Bromly Oxnam, head of the Washington, D. C., area of the Methodist church, told the group last night the procedures of some "congressional investigation committees need looking into."

He pointed to the committees' manner of "handling witnesses" as "incompetent and needing some changes." He also applied the term "incompetent" to some of the members of the committees.

ADVERTISE IN THE TIMES

Mummasburg

MUMMASBURG—Mr. and Mrs. Eldad Keener and family, Shippensburg, were over-night guests Saturday at the home of Mr. and Mrs. Chester Shue and family.

Mr. and Mrs. Ralph Mummert, Elizabethtown, spent Saturday at the home of Mr. and Mrs. Frank Miller and family.

Rodney Emlet, Wrightsville, is spending some time at the home of his grandparents, Mr. and Mrs. Clyde Wilson.

Mrs. Armor Leatherman, of near Harney, spent Wednesday evening at the home of her mother, Mrs. Florence Wilson. Her husband attended the bankers' banquet which was held in the social room of Zion Reformed Church, Arendtsville.

GLEASON SIGNS FOR SEPARATION

NEW YORK (AP)—Television star Jackie Gleason has signed an agreement giving his wife a separation, custody of their two children and 14½ per cent of his gross salary in alimony.

Terms of the agreement between Jackie and his wife Genevieve were announced Thursday in a written statement which corrected a previous report that the alimony figure would be 15 per cent.

Gleason earned $336,000 last year. If his earnings continue on that scale, the payments will amount to nearly $50,000 a year.

Gleason claims he retained only $63,000 after taxes in 1953.

The Gleasons were married in 1936.

RIVER COWBOYS

CHATTANOOGA, Tenn. (AP) — John W. Cummings, assistant vice president of Pioneer Bank here, and some guests cruising down a river near Lake Okeechobee, Fla., saw a calf thrashing about in the water. They flipped a rope around the calf's neck and towed it to shore.

Barely steady on fryers, weak on heavy-type hens. Offerings of all classes more than ample. Demand very selective. Average young chickens sold low as 25c but better stock moved slow at 28—30c. One lot of colored fowl cleared to dressers at 22c, while the majority of supply remained unsold. Odd lots of turkeys, ducks and light type fowl attracted very little interest. Exchange Pupils Get Study, Travel, Love

LONG BEACH, Calif. (AP) — Esher Beckstead, a student at Wilson High School, and Janine Vertanian, of Paris, France, have exchanged schools. But their switch has produced more than travel and education.

Janine has become engaged to an American surgeon, Dr. Harold Peters of Los Angeles. They'll honeymoon in France.

Her mother reports Esther may marry a lawyer she met in Europe.

Eye Docs Seek More Checks On Motorists

MINNEAPOLIS (AP) — The Minnesota Optometric Assn. was told drivers should pass a vision test each time their licenses are renewed.

"It is preposterous to assume a drivers' vision is the same at age 60 or 70 as it was when he got his first license as a young man," Dr. Samuel Brown, first vice president of the American Optometric Assn., said.

SAYS HIS PARTY WILL FIGHT FOR INCOME TAX CUT

By JOE HALL

WASHINGTON (AP) — Sen. George (D-Ga) said today Democrats would fight in the Senate to write new income tax cuts into a general tax revision bill that already provides nearly 1½ billion dollars in tax relief for corporations and individuals.

The bill was headed for possible Senate debate next week after the Senate Finance Committee yesterday formally approved the 875-page house-passed measure that would overhaul the nation's tax laws for the first time in 70 years.

The Democrats on the committee had talked of trying to include new income tax reduction provisions, but they apparently made no move to do so.

Two Alternatives

However, George — the committee's senior Democrat — said in an interview Democratic strategists have settled on two alternate proposals for full Senate consideration:

1. To reduce personal income taxes $2,400,000,000 annually by a $100 increase in personal exemptions.

2. To give each taxpayer a $20 annual income tax credit. It was estimated this plan would mean a $1,250,000,000 annual tax cut.

Chairman Millikin (R-Colo) of the Finance Committee would not comment on proposed amendments, but he predicted the Senate would accept the bill about as it came from his group.

Opposed To Administration

The Eisenhower administration has come out in outright opposition to any new general income tax reduction, contending the government cannot stand the added revenue loss.

However, the administration has backed revenue-losing provisions in the tax revision bill on grounds they would correct long-standing inequities and encourage business expansion and investment.

A number of Democrats have attacked the legislation, claiming it is weighted in favor of big business and the wealthy, but administration officials have contended its benefits would be about equally distributed between business and individuals. Administration spokesmen have argued that business expansion would lead to more jobs.

Actually, the revision bill would provide no adjustments in major tax rates. Its benefits would be realized through more liberal allowances to corporations and individuals.

Visitor Finds Right Pew, Wrong Patient

OMAHA (AP) — The visitor walked into the hospital and asked to see patient McMorris. Nurses gave him a room number, but neither of the men in the room was the one he sought.

Back in the office he gave a first name. The nurse exclaimed:

"Oh, you mean McMorris No. 1. He went home."

Seems McMorris replaced McMorris in the same room, same bed and same name. No relation.

Stork Gives Advance Notice To The Press

FREDERICKSBURG, Va. (AP) — Mrs. Carl Joseph LaMonica picked up a newspaper and read—to her amazement—she had become the mother of a girl. The next day she lived up to advance notice—went to the hospital, became the mother of a girl.

The hospital explained it wasn't in the habit of giving out such announcements ahead of the stork. In this case it was a mixup of records. The lady who had the first girl was another Mrs. LaMonica—Mrs. Guida Louis LaMonica.

WASTED MONEY

BEATRICE, Neb. (AP) — A letter from a motorist told the police to "credit" his past parking tickets with 20 cents he "squandered" in the meters on a day when the police weren't checking cars because it was a state holiday.

Abbottstown

ABBOTTSTOWN—Mr. and Mrs. Norman Miller celebrated their 25th wedding anniversary June 15.

The Ever Ready Class of the Reformed Sunday School served a banquet Wednesday night to the postmasters. About 50 attended. A business meeting followed the banquet.

Mrs. Amos Kuhn, this place, and Mrs. Betty Kraft and daughters, Kathy and Beth, Etters, spent the weekend in Philadelphia.

Julia Ann Sullivan is reported ill at her home.

BLANK ROBBERY

NEW YORK (AP) — An armed holdup man trailed a woman carrying a bulky payroll-type manila envelope. In the lobby of her office building he grabbed the envelope, shoved her into an elevator and ordered the operator to take the car up. He escaped with the envelope containing several hundred blank order pads.

INITIAL SUCCESS

Now they also have David Alfred, 5, Dennis Armand, 4, Daniel Arthur, 3, twins Doris Ann and Donald Anthony, 2, and Dominic Andre, 8 months.

AIR RAID CLASSES

STOCKHOLM (AP) — Pupils in the top class of Stockholm's public schools have air raid defense classes —first aid for the girls, fire fighting for the boys. The state pays the cost.
